Description

The wall mounted drinking fountain is hygienic, robust and easily installed at adult or junior height. The NSF approved shielded bubbler valve is positioned for ease of use and the smooth radiused design eliminates sharp corners which can cause injury. The drinking fountain is formed with integral wall mounting brackets.

Construction

The drinking fountain is manufactured in one piece without joints or crevices from grade 304 stainless steel polished to a satin finish. For ease of cleaning and hygiene a splashback is incorporated in the top of the drinking fountain. The drinking fountain is supplied with a flush grated waste fitting and a NSF approved chrome plated shielded bubbler complete with a self closing push button valve.

Option

- ▲ A range of **Enviro-Glaze** colour finishes including white

- ▲ This drinking fountain is available in a BOTTLE FILLER version – please refer to model 463
